AIR COMPRESSOR

Work Order

Here you can see what is wrong with the vehicle.

According to this there is a problem with the air compressor.

Upon completing any needed repairs you will sign off in the lower signature box and hit "confirm."

DAILY VEHICLE INSPECTION REPORT

This is where you have an opportunity to make any notes that you need to make concerning the repair. Make sure to be thorough as this becomes your maintenance records.

Once completed tap "OK" and the work order is cleared from the system.

Create a Work Order

Select the vehicle with the defect by selecting "Vehicle #" and tapping the vehicle in the drop down menu.

Then hit the gray box that says "defects found" (this can be seen better in landscape mode by turning your phone on it's side).

- This defect affects the safe operation of the motor vehicle or is likely to result in its mechanical breakdown.
- This defect DOES NOT affect the safe operation of the motor vehicle and IS NOT likely to result in its mechanical breakdown.

Body

Defects found?

Select rather or not the defect is safety sensitive item or not. This alerts management that the vehicle is OOS immediately if it affects the safe operation of the vehicle.

Select the category of the defect, and then select under the item to make notes regarding the defect.

Select "Save" in the top right corner to save defect.
